

Chart 5

Highest risk (most common) Specific Causes of Mortality (Diagnoses Level_1) 2006-2011

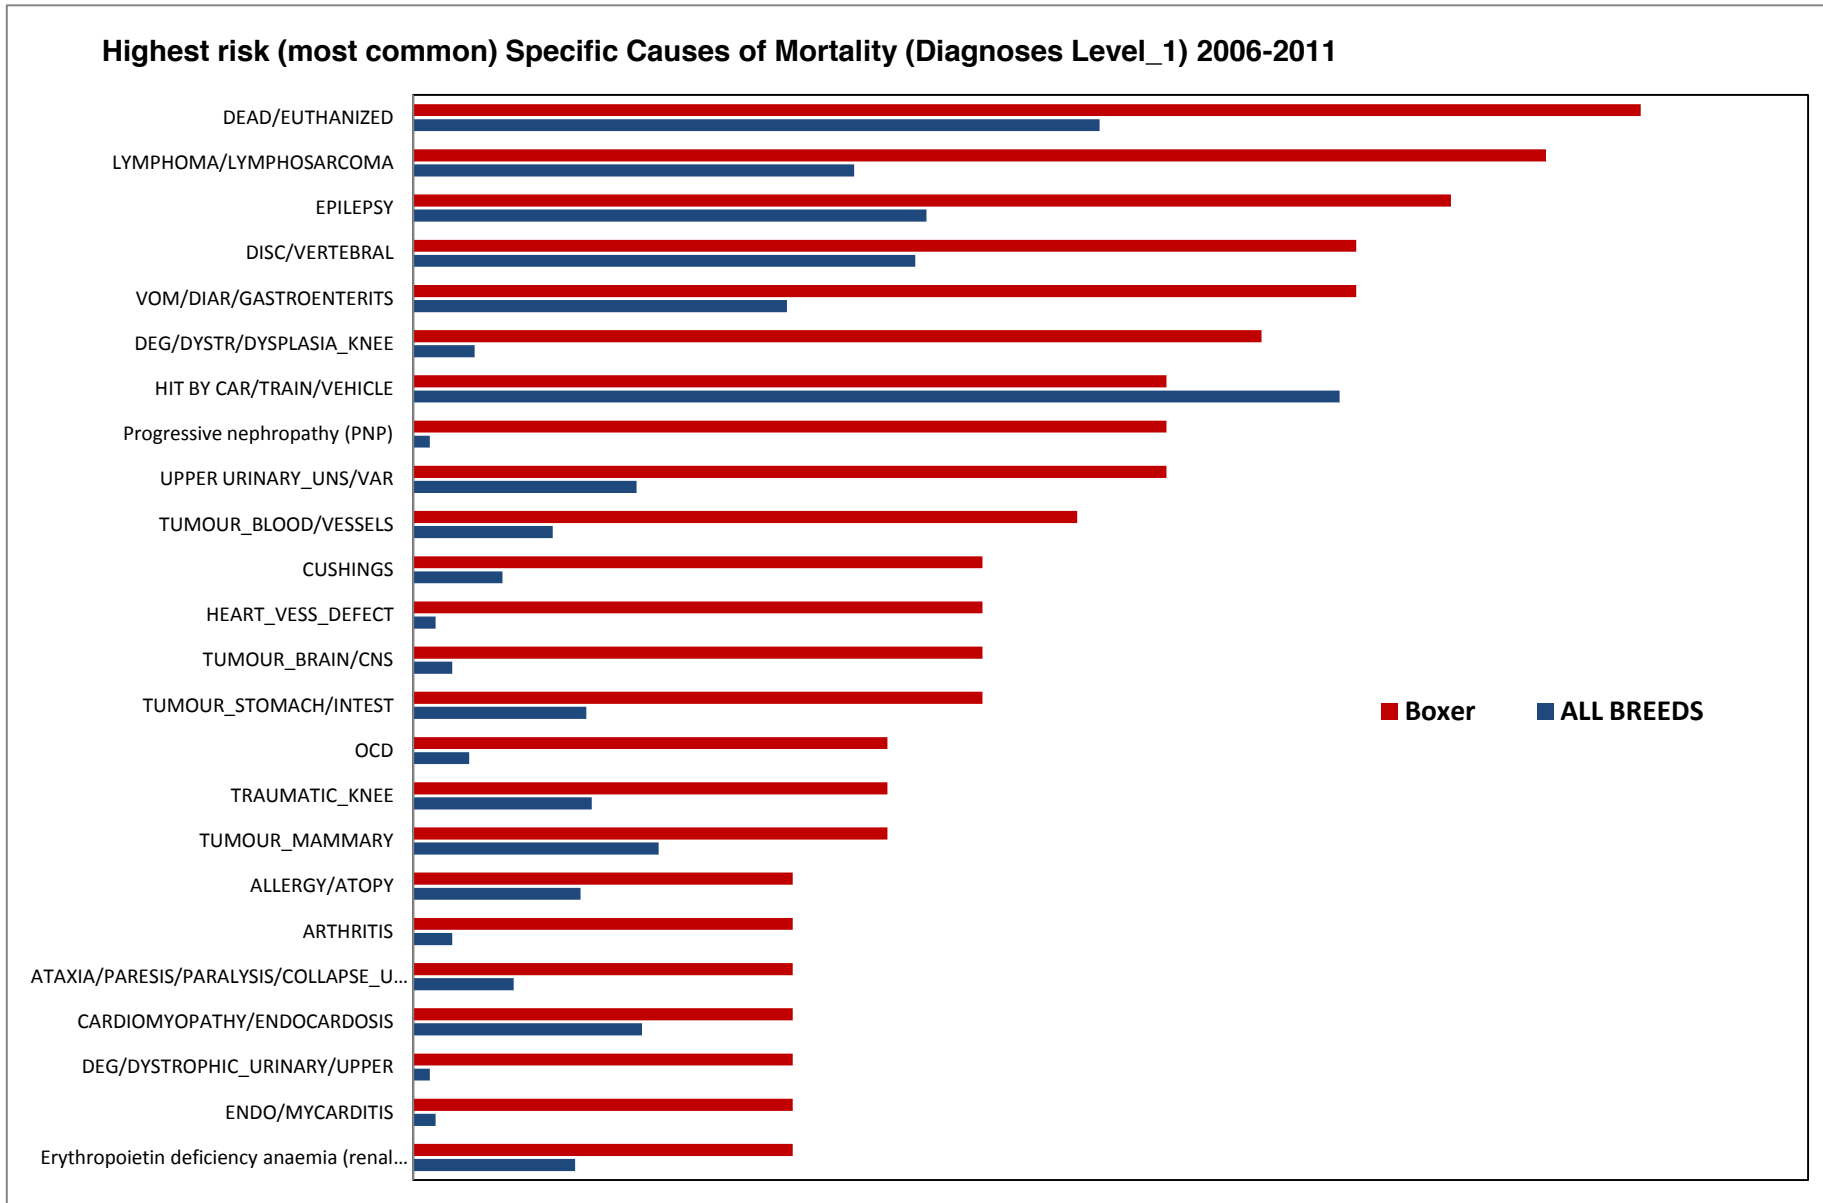

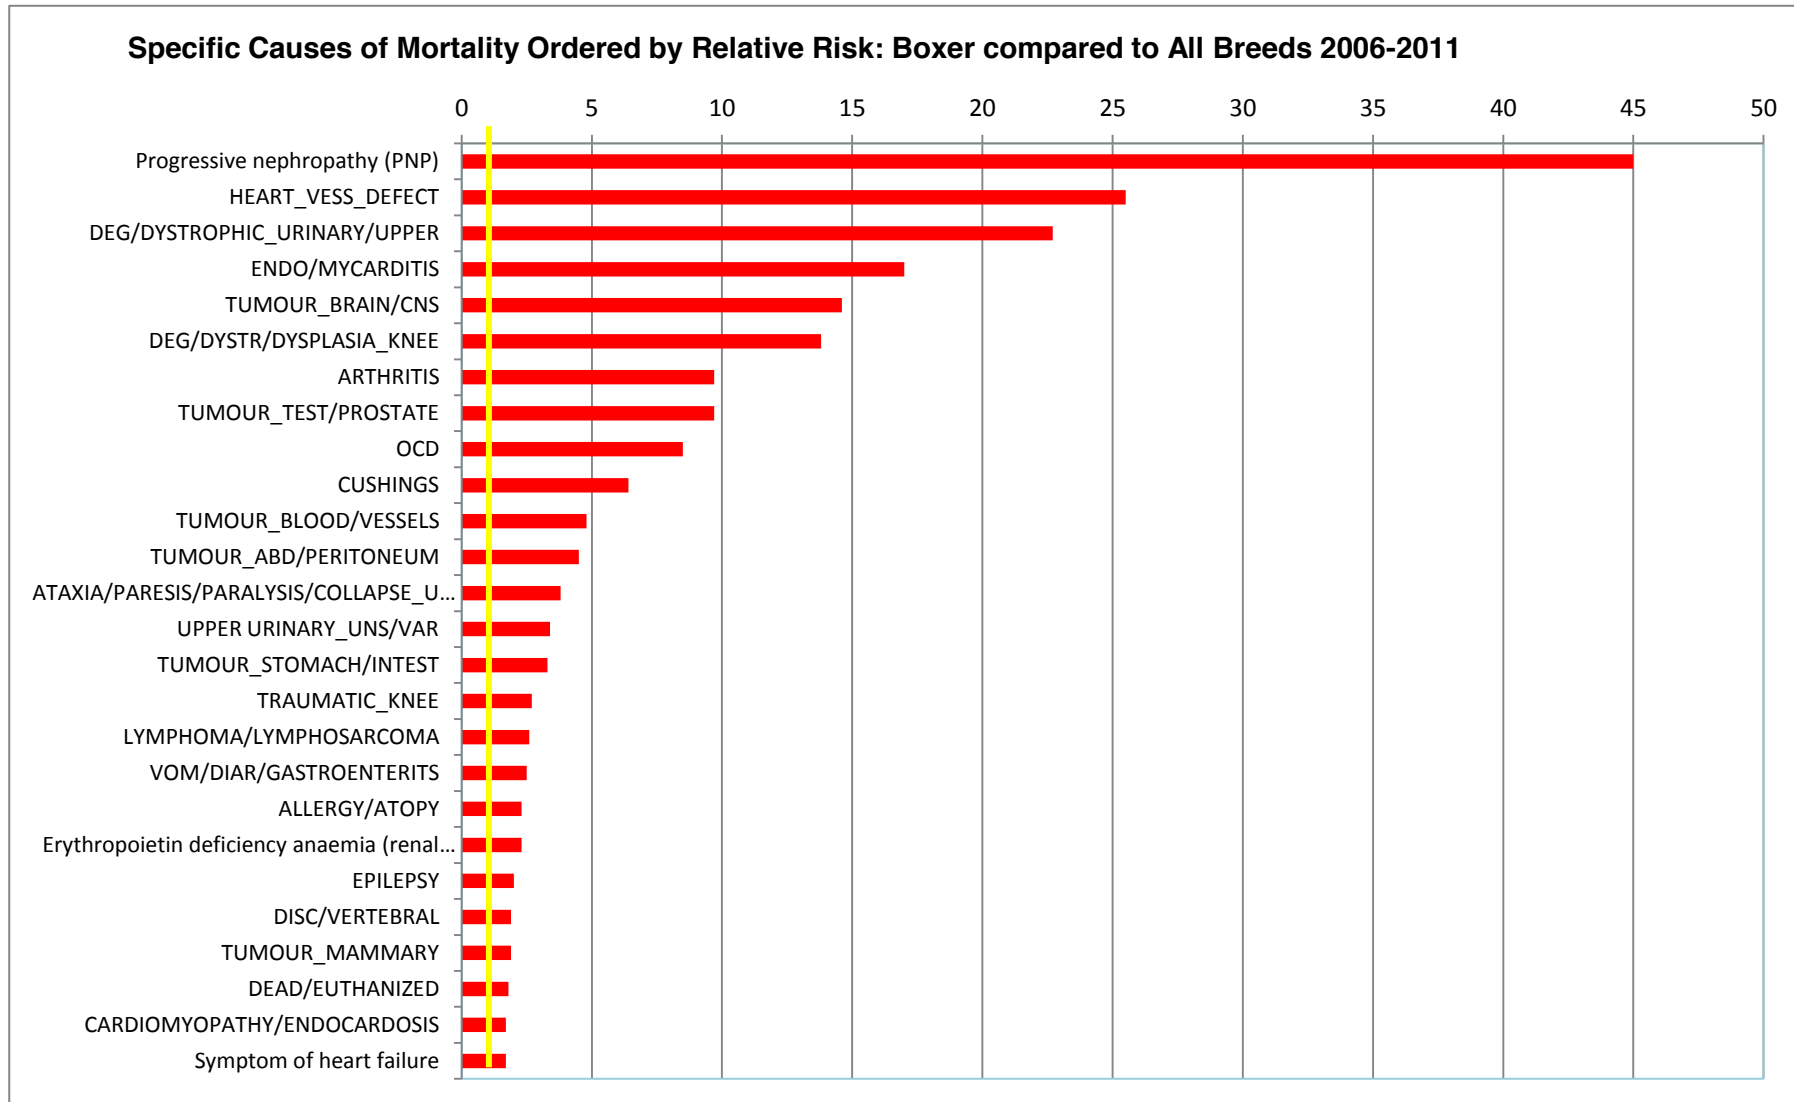

Chart 6

Specific Causes of Mortality Ordered by Relative Risk: Boxer compared to All Breeds 2006-2011

Interpretation: NOTE: conditions with <4 deaths have been dropped. As for Chart 4. Note: Rare conditions that occur sporadically may appear as high relative risk (RR). Compare to previous chart(s) to help judge commonness of conditions with high RR in order to assess the importance of findings.
